

Engage. Promote. Innovate. Collaborate.

Sessions and Times

The information below provides the sessions available during the three timeslots on the day. When you register please select a main ticket and choose one of the sessions below for each timeslot.

Morning: 10.20am - 11.20pm

	Session topic and title	Brief summary of content
E	Engaging communities – Session 1: The community knows the community	Hear from community projects – Chorley Sheds which supports people with loneliness and is a perfect example of how the community knows best; and Blackpool FC community trust who deliver a variety of programmes to support health issues. Changes Talks – Sam Tyrer tells of his amazing work in schools.
P	Promoting partnerships - Session 1: Igniting passion through ownership	How co-design and delivery of initiatives like social prescribing, volunteering and wellbeing services can spark the ignition of patient behaviour change.
I	Innovating for improvement – Session 1: Unlocking the potential of people	Our speakers present innovations such as an award nominated porter project which redesigned services to match patient needs, and the pioneering Ask Sami service for workforce. We'll also have a speaker on the power of coaching in empowering front line staff.
C	Collaborating to develop out of hospital services – Session 1: Health closer to home	Hear our experts talk about their experience of moving the offer of care to children and families to within neighbourhoods, creating the pioneering offer of trainee nursing roles in care homes, and supporting the recruitment of General Practice Nurses to expand capacity and capability across the primary care workforce and improve health closer to home.

Midmorning: 11.50am – 12.50pm

	Session topic and title	Brief summary of content
E	Engaging communities – Session 2: Unleashing the potential in people	Listen to our speakers talk about how they have used social prescribing supporting patients to navigate the health system to empower themselves and free up services.
P	Promoting Partnerships – Session 2: The power of trust	Our speakers will talk about how they used the power of trusting other professionals in order to develop a Central Lancashire hospital discharge charter, improve ambulance turnaround times and embed a culture of recovery and resilience.
I	Innovating for improvement – Session 2: Who would have thought it?	Learn about innovations that have taken a less traditional route to tackle traditional problems. Our speakers will tell you about how a training and competency programme has improved patient experience in theatre, how a simple tool can identify vulnerable patients with cognitive impairments and how low vision technology is transforming lives.
C	Collaborating to develop out of hospital services – Session 2: Shared risk in action	Listen to our speakers talk about how they have used shared risk to deliver secure electronic messaging between hospital and community pharmacists to improve safety and prevent readmissions, make massive stride in working as a maternity system.

Afternoon: 13-50pm - 14.50pm

	Session topic and title	Brief summary of content
E	Engaging communities – Session 3: Breaking down barriers: Saving lives	Our presenters will talk about how neighbourhood development and community centred work, as well as using innovative and creative approaches to drive uptake in National Cancer Screening Programmes, is saving and enhancing lives across Lancashire.
P	Promoting Partnerships – Session 3: Coordinating energy	Our guest speakers will talk about how they have used multidisciplinary teams and a coordinated effort to work with patients to improve their own health and wellbeing, reduce unnecessary use of services, ensure every member of the team has a voice, and most importantly enhance the patient experience.
I	Innovating for improvement – Session 3: There's no place like home	The right care, at the right time, in the right place is what we are all striving for; Get to know a bit more about Psynergy a mental health street triage, and an integrated home improvement service who believe there is not place like home.
C	Collaborating to develop out of hospital services – Session 3: The clout of a conversation	Learn about services that are driving improvement across the therapy domains for stroke patients, and the method of using art to stimulate conversation around difficult topics such as illness, death and bereavement. And the bounce back clinic – preventing falls by working together better.
