

- Maximising uptake of new and existing services

Road map – Pharmacy

2028/29 – Potential Pathways for Integrated working

- Maximising uptake of new and existing services
- Remote pharmacy services & virtual ward support *
- Mental Health Support Services *
- Weight Management & Lifestyle Clinics *
- Preventative Health & Screening Services *

2027/28 – New foundations

- Maximising uptake of new and existing services
- Developing new services and expanding existing
- Chronic Disease Management Clinics *
- Independent Prescribing Service
- Developing digital support *
- Pharmacogenomics & Personalised Medicine *
- Expanding Discharge Medicine Service
- Supporting the development of a primary care provider collaborative

2026/27 – Prepare the ground

- Workforce development (training for prescribing and digital skills)
- Review variance across LSC, and develop plans to address
- Integration into networks (strengthening CP PCN leads) and neighbourhood teams
- IT integration (Single Patient Record, NHS App)
- Governance frameworks for prescribing and remote care
- Awareness campaigns to drive uptake
- Maximising uptake existing services

2030/31 – The Vision

- CP by default for patients where services exist
- Pharmacy teams integrated into network delivery at every level
- Maximum usage of pharmacy teams clinical skills

* Requires funding/budget

Road map – Dentistry

2028/29 - Potential Pathways for Integrated working

- Delivery of the Dental Access & OHI Plan Year 4
- Expansion of IDAP, paed's, care homes
- Implement left shift plan Year 2
- Delivery of quality improvement scheme Year 3
- Community Dental Service Procurement
- Orthodontic services Procurement

2027/28 - New foundations

- Delivery of the Dental Access & OHI Plan Year 3
- Expansion of IDAP, paed's and care homes programme – focus on local integration where possible
- Implement left shift plan Year 1
- Implement OHNA plan Year 1
- Delivery of quality improvement scheme Year 2
- Orthodontic services review
- MOS Procurement
- Supporting the development of a primary care provider collaborative

2029/30 – Going further

- Deliver Year 5 of the Dental Access Plan
- Continued expansion of pathways and services
- Mobilising new Community Dental Service
- Orthodontic services Procurement

2030/31 – The Vision

- Shared care in every speciality
- Prevention integrated neighbourhood level
- IDAP integrated at neighbourhood level

2026/27- Prepare the ground

- Delivery of the Dental Access & OHI Plan Year 2
- Making the best use of existing resources available to reduce inequalities, address variation and maximise access opportunities for priority groups – eg expanding & integrating 'Integrated Dental Access Practices' (IDAP)/Paeds pathway
- Development of left shift plan – eg MOS, enhanced discharge pathways and shared care models
- Delivery quality improvement scheme Year 1
- Develop a plan to address recommendations from OHNA for special care adults and paed's
- Delivery of national contract reform including urgent/unscheduled care
- Call Handling Procurement
- Referral Management Service Procurement

Road map – Eye care

2027/28 – Progress selected pathways for Integrated working

- Integrated Children's Services – post-vision screening pathway **
- Community glaucoma monitoring **
- Naevus monitoring (expansion of service in central patch) **
- Specialist Contact Lens Service **
- Hydroxychloroquine retinopathy monitoring **
- ECSP – embed in pathways, contracts, service specifications

2026/27 – New foundations

- **Workforce:** invest in development of required competencies (IP & Glaucoma): academic, clinical placements, and managed clinical networks *
- Implement national specification for **BP & pulse** measurement. *
- Implement recommendations to address **equality of access to GOS**.
- Support Planned Care in **referral management**, clinical triage, and delivery of patient choice. **
- Eye care support pathway (ESCP) – communicate principles in system
- Supporting the development of a primary care provider collaborative

* Requires funding/budget

** Planned Care colleagues

2028/29 – Going further with pathway development

- Dry Eye / Ocular Surface Disease care pathway **
- Integrated Diagnostic tests in community **
- Maculopathy referral refinement and stable disease monitoring **
- ECSP A– embed into culture and way of working

2029/30 – The Vision

- Fully utilising primary care optometry resource
- Integrated pathways become default
- ECSP – business as usual

2025/26 –Preparing the ground

- Review access and coverage of core and locally commissioned sight test services – understand variation and address inequalities
- Analyse workforce development needs
- Support maximal uptake of tier 1 pathways
- System adoption of the Eye Care Support Pathway
- Evaluation of CVD (BP & AF) pilot
- Commission Sight Testing in Special Educational Settings
