Bright Green = On Call Approval
Yellow = Locality Committee Approval

## **Financial Scheme of Delegation**

## Introduction

The proposed scheme of delegation allows the L&SC ICB to ensure that its business is conducted in an efficient manner, at the same time ensuring expenditure is approved and controlled effectively.

# **Additional Controls**

- 1 In order to ensure maximum control and accountability officers will only be allowed to approve or incur expenditure against designated budgets.
- 2 All budget holders will need to sign for their respective budgets.
- 3 All budget holders will be given the appropriate financial training and informed of their responsibilities in managing budgets.
- 4 A distinction has been drawn between healthcare and non healthcare related expenditure in setting the scheme of delegation.
- 5 All healthcare contracts have been approved by the Chief Executive, the Chief Financial Officer or Committee. In order to ensure efficient payment and financial control, the scheme of delegation permits finance officers to approve the monthly block payments without the need to seek approval from the Chief Executive, the Chief Financial Officer or Committee.
- 6 Mangers on the Silver on call rota will be given permission to incur expenditure on behalf of the L&SC ICB in relation to health care and non health care expenditure as per the delegated limits.

## PROCUREMENT ROUTE

The quote/tender requirement for each contract shall be determined by the total contract value. The contract value of each contracting opportunity must be a genuine pre-estimate of the total contract value, inclusive of VAT (i.e., three-year contract of £50,000 per year = total contract value of £150,000). Contract values must not be deliberately split/disaggregated to avoid the need to consider competition.

To comply with the procurement regulations, and to ensure equity to all sectors, the ICB will ensure full compliance with the following thresholds:

Contract Value (over the full term of the	Quote/tender requirement
contract)	Quote/tenuer requirement
Less than £20,000	One written quote
	No formal process is required, although best value for money should be sought at all times and purchases should be from a reputable source.
	ICB to have oversight with advice sought from local contract leads or ICB directly if required.
Between £20,000 and £75,000	A minimum of three quotations must be sought.
	Quotations should be in writing but not subject to formal receipt process and can be posted or emailed.
	ICB to have oversight with advice sought from local contract leads or ICB directly if required.
Between £75,000 and the Public Contracts	A minimum of three tenders must be sought.
Regulations threshold, applicable at the time.	All opportunities must be advertised on the Contracts Finder Procurement Portal.
	Tender process to be conducted using an e-tendering platform.
	Prior approval must be sought from the ICB.
Equal to or above the Public Contracts  Regulations threshold, applicable at the time.	Compliance with the Public Contract Regulations 2015 (as amended). This includes Competitive tendering process via Find a Tender Service and Contracts Finder.
	Sign-off must be sought from ICB beforehand.
Any contract value where a relevant and	Direct award or further competition according to the terms of each Framework Agreement or
appropriate Framework Agreement or	Dynamic Purchasing System
Dynamic Purchasing System exists	

PUBLIC CONTRACT REGULATIONS 2015: THRESHOLDS FROM 1 JANUARY 2022 (INCLUSIVE OF		
Public works contracts	£5,336,937	
Public supply and services contracts	£213,477	
Light Touch Regime for Services	£663,540	

There should be consultation with the Finance team to confirm the applicability of VAT when calculating the expected value of a contract and with procurement team to validate assumptions as to which threshold applies.

Wherever possible the ICB should procure supplies and services through NHS and public sector framework agreements. Such frameworks can offer a compliant procurement route to direct award or a pre-qualified supply base through which further competition may be conducted, in accordance with the framework terms of use.

The ICB must adhere to NHS England Policy and Guidance for procurement of Management Consultancy Services and Agency Staff.

All procurement processes must have the relevant governance process sign off before commencement and the contract award must be authorised in accordance with the ICBs' Scheme of Reservation and Delegation

#### SINGLE TENDER WAIVERS

Single Tender Waivers (STW) could be applied to the purchase of goods, the direct award of contract for a new service and the extension of an existing contract where there is no provision for extension.

The waiving of competitive tendering procedures should be done in a timely manner and not be used to deliberately avoid competition, or for administrative convenience, or to award further work to a provider originally appointed through a competitive procedure where this would breach the procurement regulations. In the event that ICB officers have a requirement to consider a direct award they should seek advice and guidance from ICB before committing the ICB to enter into a contract arrangement or to commit a ICB to expenditure.

Where a ICB officer wishes to apply for an exemption, they shall do so in accordance with the ICB's Standing Financial Instructions or Prime Financial Policies:

• Tender waivers to be approved in line with the Financial Scheme of Delegation and reported to the Audit Committee.

All decisions arising from an approved Competition Waiver will be reported to the ICB Audit Committee. Waivers can be requested in the following circumstances:

- Very exceptional circumstances where the Accountable Officer decides that formal tendering procedures would not be practicable, and the circumstances are detailed in an appropriate ICB Committee record.
- Specialist expertise/product is required and is available from only one source.
- The task is essential to complete the project and arises as a consequence of a recently completed assignment and engaging a different provider for the new task would be inappropriate.
- There is a clear benefit to be gained from maintaining continuity with an earlier project. However, in such cases the benefits of such continuity must outweigh any potential financial advantage to be gained by competitive tendering.
- The provision of legal advice and services providing that any legal firm or partnership commissioned by the ICB is regulated by the Law Society for England and Wales for the conduct of their business (or by the Bar Council for England and Wales in relation to the obtaining of Counsel's opinion) and are generally recognised as having sufficient expertise in the area of work for which they are commissioned.
- A consortium arrangement is in place and a lead organisation has been appointed to carry out tendering activity on behalf of the consortium members.
- The timescale genuinely precludes competitive tendering. It is important to note that failure to plan the work properly would not be regarded as a justification for a single tender.

Where a request for STW is made relating to a proof of concept or pilot project, the waiver request must include details of the process and timeline for the proof-of-concept evaluation including exit plan if service does not continue.

The process and required template are covered under Appendix C - Single Tender Waiver Form and Single Tender Process.

The ICB will require assurance about potential providers and are required to undertake a due diligence process proportionate to the nature and value of the contract. Where this applies to a direct award or material contract variation, financial and quality assurance checks of suppliers and providers will be expected to be undertaken before entering into a contract which will assess the suitability of the provider using the following criteria:

Financial viability

Economic standing

Corporate social responsibility

Clinical capacity and capability (where applicable)

Clinical governance (where applicable)

Quality/accreditation

Compliance with the Public Sector Equality Duty
