Title	Name
Group Chair	Mr Shahedal Bari
NWCSCN Clinical Lead	Dr Gerry Skales

## ACHIEVEMENTS 2016/17

Project title	Detail	Date achieved	Improvement made?
<b>Surgical Lung Nurses</b>	To have specific 'Lung Surgical Nurses' on the ward to care for the surgery patients, ensuring that all staff can focus on their roles and that surgical patients don't fall through the net.	September 2016 BVH	Surgical patients now receive the same excellent level of care as the adjuvant patients.
<b>Super Regional MDT</b>	A Super Regional MDT has been set up for High Risk cases to be discussed by 4 surgeons.	April 2016 BVH	Patients, who may be turned down by a surgeon as they are too high risk, have the opportunity to be picked up by a different surgeon who feels the surgery would be beneficial and possible.
<b>Educational Event – Cross Network</b>	The Lung NSSG held its annual education event which was extremely well attended, looking at new techniques and sharing best practice across Trusts.	March 2017	New ideas for pathway development shared.
