| Title of paper | Finance Performance Report – Month 8 |
| Presented by | Sam Proffitt, Chief Finance Officer |
| Author | Katherine Disley, Director of Operational Finance |
| Agenda item | 12 |
| Confidential | No |

Executive summary

As at the 30 November 2023 (month 8), the Integrated Care Board (ICB) is reporting a system deficit of £172m which is £82m worse than plan. This represents a current deficit of £122m for the Provider Trusts with the ICB reporting a year-to-date deficit of £50m.

The month 8 deficit position is being driven by in-year cost pressures and undelivered savings schemes for Provider Trusts and the ICB.

The system is still forecasting to deliver a full year £80.0m deficit in line with plan, however it is unlikely this will now be achievable given the level of cost pressures in the system.

The current trajectory would suggest a year end deficit position nearer £258m deficit but a reassessment of the plan in November has submitted a reviewed deficit target of £198m. This requires several actions to enable the system to meet this revised plan and address the £60m risk.

The report provides an overview of the current financial position, the key actions taken as part of the replanning exercise and the main areas of focus for the system as we work to collectively deliver the resubmitted system target.

Recommendations

The Lancashire and South Cumbria ICB is asked to **note** the content of this report.

| Whic | h Strategic Objective/s does the report relate to: | Tick |
|------|---|------|
| SO1 | Improve quality, including safety, clinical outcomes, and patient | |
| | experience | |
| SO2 | To equalise opportunities and clinical outcomes across the area | |
| SO3 | Make working in Lancashire and South Cumbria an attractive and | |
| | desirable option for existing and potential employees | |
| SO4 | Meet financial targets and deliver improved productivity | Υ |
| SO5 | Meet national and locally determined performance standards and | Υ |
| | targets | |
| SO6 | To develop and implement ambitious, deliverable strategies | Υ |

Report authorised by: Sam Proffitt, Chief Finance Officer

Integrated Care Board – 10 January 2024

Finance Performance Report – Month 8

1.0 Introduction

- 1.1 This paper reports the financial position at the end of November 2023 and provides an assessment of the risks and mitigating actions required to ensure the Lancashire and South Cumbria (LSC) health system can achieve its 2023-24 financial targets.
- 1.2 At the start of the 2023-24 financial year, the ICB set out a significant savings and mitigation strategy of £172.0m in order to deliver the planned £0.5m surplus year end position. With the exception of the contract review scheme, this is being delivered.
- 1.3 In year pressures are £127.8m due to excess inflation for Continuing Healthcare and Prescribing in addition to increased activity for Individual Packages of Care. This additional pressure is driving the ICB's current reported deficit position. Although the current forecast remains to deliver the planned £0.5m year end surplus position, it is likely that these additional in year pressures will not be fully mitigated.
- 1.4 The providers are on track to deliver their 5% CIP plans totalling £189.7m, however a stretch target of £92.0m required to be delivered to achieve the planned year end £80.0m deficit position was dependent on a number of system wide schemes delivering in year. These schemes will take longer to develop and implement.

2.0 Current Financial Performance

- 2.1 As at the 30 November 2023 (month 8), the Integrated Care Board (ICB) is reporting a system deficit of £172m which is £82m worse than plan. This represents a current deficit of £122m for the Provider Trusts and the ICB reporting a year-to-date deficit of £50m.
- 2.2 All Provider Trusts are forecasting to achieve the planned £80.5m deficit position and the ICB is forecasting to achieve its planned £0.5m year-end surplus position.
- 2.3 However, the trajectory would suggest the system deficit could be £258m by year end due to the additional in year pressures and timing of the delivery of the system wide recovery programme

- 2.4 A replanning exercise was undertaken during November 2023. The collective likely system deficit position based on this exercise has been quantified as £198.0m. This assumes a number of mitigations to address the remaining £60m risk against the current trajectory. This also does not include any financial impact of the further strike action.
- 2.5 The month 8 position for the system is provided at **Table 1**.

| ICB SYSTEM TOTAL | (89.5) | (172.1) | (82.6) | (80.0) | (80.0) | (0.0) | | |

3.0 ICB Financial Performance

- 3.1 At the end of month 8, the Integrated Care Board (ICB) is reporting a year-to-date deficit of £50.4m against a planned break-even position.
- 3.2 The reported deficit position is being driven by prior year pressures, undelivered savings relating to a contract review scheme, continuing health care packages of care costs, and prescribing pressures.
- 3.3 As part of the month end process, a full review has been undertaken of the key pressure areas in order to establish the drivers of the prior year and in-year pressures and an accurate assessment of the deliverability of remaining savings schemes.
- 3.4 The ICB trajectory shows a £70m deficit risk to the ICB breakeven Plan. Several mitigations have been identified to maintain the current level of deficit to enable the ICB to achieve a revised deficit plan of no more than a £49m deficit.
- 3.5 These mitigations include using remaining budgets, tight spending controls and working with partner organisations to identify costs that should be shared and jointly mitigated.

4.0 Provider Financial Performance

- 4.1 At month 8, the providers are reporting a collective deficit of £121.8m against a planned deficit of £89.5m. The adverse variance of £32.2m is driven by:
 - East Lancashire Hospitals Trust (£12m): £7.3m Cost Improvement Programme (CIP) slippage, £6.9m unachieved system stretch and £6.9m strike action (costs and lost income).
 - Lancashire and South Cumbria Foundation Trust (£2.8m) which primarily all relates to Out of Area Placements (OAPs).
 - Lancashire Teaching Hospitals (£16.9m): £10.3m unachieved system stretch, £6.8m CIP slippage, £1.7m Strike Action (costs and lost income).
 - University Hospitals Morecambe Bay (£4.4m): £6.5m unachieved system stretch and £2.1m Strike Action (costs and lost income).
 - North West Ambulance Service is £3.8m better than plan which is offsetting some of the adverse variance. This is expected to correct itself by the year-end as planned investments come on stream.
- 4.2 Blackpool Teaching Hospitals are broadly on plan having mitigated the impact of strike action and the system planning gap.
- 4.3 Following the reassessment of the plan in November, the Providers are aiming to collectively remain with a year end deficit position of £149m.

5.0 Efficiencies

- Month 8 efficiency performance is shown in **Table 2** below. As at the 30 November, savings of £126.5m have been delivered across the system which is behind plan by £35.1m. Provider savings plans are £12.0m behind plan and ICB savings plans are £31.2m behind plan.
- 5.2 In total, across all organisations, 59% of year-to-date savings have been delivered recurrently and the current forecast is showing that 65% will be delivered recurrently by the end of the year.
- 5.3 The full year forecast for all organisations is to achieve £299.0m which reflects the £97m QIPP in the ICB and £202m in Provider Cost Improvement Plans (CIP).

| ICB TOTAL | 286.7 | 161.6 | 74.5 | 52.0 | 126.5 | (35.1) | 195.6 | 103.5 | 299.0 | 12.3 | 65% | 35% | |

6.0 Capital

6.1 The provider capital envelope for 2023-24 is £126.8m as shown in **Table 3** below. At month 8, providers have spent £51.1m, which is £13.9m behind plan. As with previous years, the spend profile accelerates in the latter art of the year and the plan is expected to be achieved.

Table 3: Capital Expenditure
