

Lancashire and South Cumbria Clinical Commissioning Groups Commissioning Policy Reviews

Dupuytren’s Contracture Public Engagement Outcomes – information and implementation only			
When the public engagement took place	Start date	End date	Duration
	24 January 2019	13 February 2019	3 weeks
Number of survey respondents – electronic or on paper	Total	By gender	By disability
	2	Female: 50% Male: 50%	Disability: 50% No disability:0% Prefer not to say: 50%
	By sexual orientation	By ethnicity	
	Heterosexual: 100%	White British: 100%	
Number of people seen face-to-face	Not applicable		
	0		
Survey question response rates from patients and members of the public	Both respondents had read the Dupuytren’s contracture policy before completing the survey	One survey respondent had received this treatment/procedure	
	One respondent felt the implementation of the policy would have an adverse impact on patients and that the CCG should take some mitigating action to address this		
Adverse impact and mitigating action suggested	The specialist is the best person to determine whether the procedure is required		
	Be advised by the specialist		
Response to concerns raised	The policy on Dupuytren’s contracture follows mandated guidance from NHS England for all clinicians and is based on the latest clinical evidence (For more information on NHS England’s guidance please follow this link - Evidence-Based Interventions Programme)		
Further action to be undertaken (if applicable)	Not applicable		
Policy ratified by Joint Committee of Clinical Commissioning Groups on 7 March 2019
